

ehCOS Triage Manchester

IN ehCOS LAND PRIORITIZING PATIENTS IN THE EMERGENCY DEPARTMENT OCCURS IN AN AGILE AND INTUITIVE WAY.

ehCOS Triage is the only patient prioritization software certified by the Spanish Triage group for version three of the Manchester Triage (MTS) structured clinical algorithm.

ADVANTAGES

- Multi-device: Web, mobile.
- Adapts to the runtime environment and core software of the organization.
- High availability (99.9%).
- Developed with **ehCOS HDK**, the robust technology platform developed for the healthcare industry.

PRODUCT DESCRIPTION

The ehCOS Manchester Triage v3 system is based on a standardized triage approach to determine the priority of patients in the emergency room based on scientific clinical algorithm that optimizes the patient flow through the emergency care system.

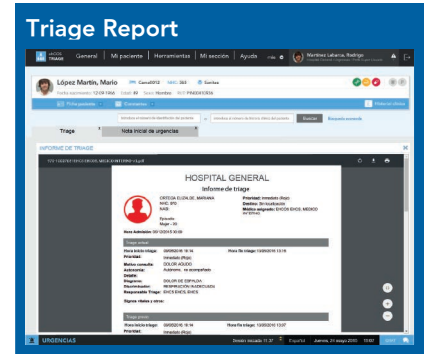

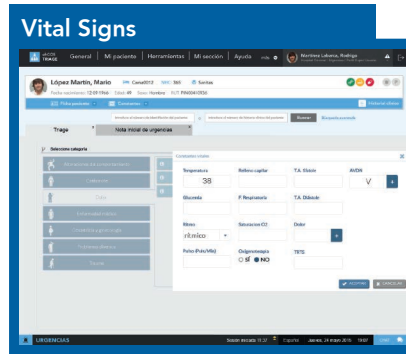

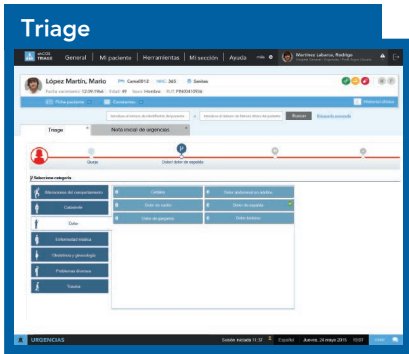

Treatment order is established by the patient's acuity based on well defined, standardized and hierarchical question.

The Manchester Triage System assigns five maximum waiting times for patients based on the severity of their condition, ranging from immediate care for critical conditions, to 240 minutes for non-urgent conditions.

CONDITION	Critical	Emergency	Urgent	Ordinary	Non-urgent
MAXIMUM TIME	0 minutes	10 minutes	60 minutes	120 minutes	240 minutes
COLOR	 1	 2	 3	 4	 5

FEATURES

- Triage support based on the latest version of the MTS algorithm.
- Automatic capture of vital signs from patient monitoring devices.
- Monitors and displays times and alerts.
- Quick and simple registration of clinical criteria for determining the priority of patients.
- Supports the flow settings for patient care and allocation.
- Real time data mining and history of activity.

SERVICES

- Adaptation and installation of the system in accordance with the organization's core software.
- Change management, on-site support and support for deployment.
- Training and certification of the triage personnel.

CERTIFIED BY THE SPANISH MANCHESTER TRIAGE GROUP (GET, FOR ITS INITIALS IN SPANISH)

The Manchester Triage Group of Spain is acknowledged under contract by the owners of the method, as the only scientific institution able to authorize its use thereof and the implementation of the new versions in Spanish territory, always with the aim of improving clinical safety in Emergency Departments.

With the approval and conformity of the Manchester Triage Group of Spain, the Manchester Triage Group, the Advanced Life Support Group and Wiley Publishing, everis has developed the ehCOS Manchester Triage V3 product, incorporating the third edition of the Manchester Triage method in Spanish, obtaining compliance certification from these organizations.
